## TO HELP YOUR PRACTICE KEEP PACE WITH PROFESSIONAL PROGRESS

### S. S. WHITE C-M-A UNIT

S. S. White's new unit simplifies your work and improves your practice!

**OPERATING EFFICIENCY**—The compact C-M-A brings office teamwork to a maximum, waste motions to a minimum, allowing you to treat more patients for a more productive practice.

**OPERATING CONVENIENCE**—Equipment functionally arranged "at your fingertips" for your particular and individual needs greatly reduces physical and mental fatigue.

**PATIENT APPEAL**—The atmosphere of a smartly styled office makes your patients less apprehensive, more relaxed, and easier to work with. It is a fact, too, that patients often judge the dentist by the appearance of his equipment.

**PROFESSIONAL ACHIEVEMENT**—The C-M-A enables you to turn out a larger volume of your best dentistry . . . helps you keep pace with professional progress.

See the C-M-A unit on display or ask your salesman about it today!

What  
Dentists Themselves  
say about

*Swissdent CR teeth...*

(Excerpts from communications received during November, 1960)

**PENNSYLVANIA:** "Swissdent CR Teeth are *still* the best, most natural teeth made." **WEST VIRGINIA:** "The best I have ever seen or used." **MINNESOTA:** "The last word in esthetics." **ILLINOIS:** "I use Swissdent teeth exclusively. None can compare to their beauty and naturalness." **MICHIGAN:** "Patients like them and so do we." **UTAH:** "I use them all the time. Best teeth I've found." **TEXAS:** "The best and prettiest teeth available." **NORTH DAKOTA:** "Easy to present to the patient." **CALIFORNIA:** "Very pleased with the esthetic results obtained." ETC., ETC.

*And because Swissdent CR Teeth cost  
so very little more, if any...  
more and more dentists now use them  
exclusively, regardless of the patient's  
means. They recognize that Swissdent  
CR Teeth provide the finest porcelain  
for the finest modern techniques.*

Swissdent CR vacuum-fired teeth  
are available through leading  
dental laboratories everywhere.

## revolutionary "f-25"

- Neat & Compact
- One Control Center
- Adaptability
- Ease of Installation

**ONE CONTROL CENTER . . .** Smart looking control box 6" x 6" x 6" combines both high and low speed turbine with one variable foot control, which eliminates messy tubing and excessive wiring. The compact "f-25" offers a built in oiler . . . a built in high capacity water filter . . . a built in high capacity air filter . . . built in reduction valves . . . a solenoid and one selector switch. And it's easy to install too . . . air, water, and an electrical outlet is all that is needed.

**ADAPTABILITY . . .** with your present equipment. You can use your present air turbine handpiece; your Atlas Copco or new Emesco high torque low speed handpiece. Your triplex syringe is another feature you can use with the "f-25." All this plus a water heater for the turbines and syringe.

# *Fine Artistry* in complete MOUTH REHABILITATION cases

Shown here is an illustration of Schroeder's outstanding craftsmanship in the creation and construction of practical restorations for a complete mouth rehabilitation.

The restorative problem

The successful solution

The completed case: functionally serviceable, truly comfortable, naturally esthetic with practically no gold visible to the beholder

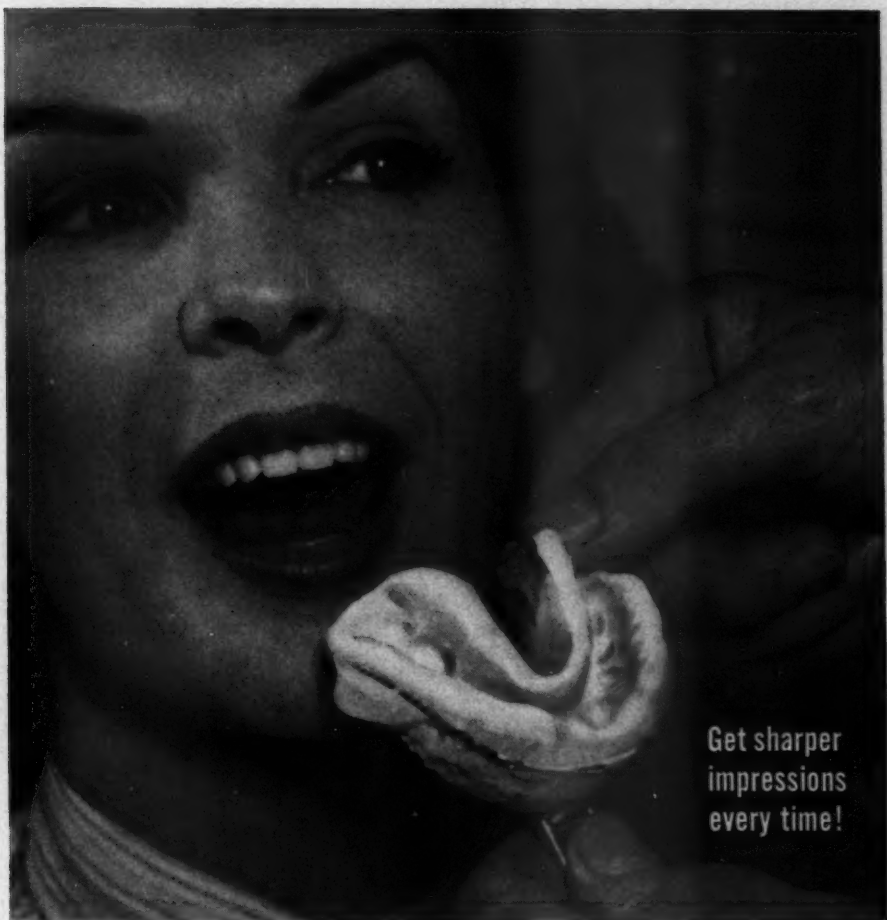

Est. 1919

You can entrust your most complex and difficult cases to Schroeder—known to an increasing clientele of leading dentists as "Headquarters for Artistry in Dental Restorations." Here, you will find a dependable laboratory service that is complete in every respect, with a highly trained and thoroughly experienced staff of technicians ready to serve you. Included are our Reverse Pin Porcelain Facing Gold Bridges, Micro Bond Crowns and Bridges, Porcelain Lined Acrylic Jacket Crowns, Precision Porcelain and Gold Bridges, Gold and Vitalium Partials, Swissdentures—everything in fact recognized in the front line of quality restorations. Only Schroeder, in the Chicago area, has the equipment, the skill, and the proven ability to provide this exclusive service for you and your patients.

## LAVORIS MOUTHWASH HELPS YOU WORK 3 important ways...

- **"Cuts" Mucus Film.** A rinse with full-strength Lavoris before an impression helps clear away mucus, prevents air bubbles. Many dentists now use Lavoris this way routinely.
- **Keeps Operative Area Cleaner.** Lavoris' unique cleansing action effectively and thoroughly cleans away mucus, food particles and impurities. Use Lavoris Spray ½ strength or stronger. (Wouldn't you rather work in a Lavoris-clean mouth?)
- **Helps Promote Patient Comfort.** To nervous patients, even minor discomforts loom large. The pleasant taste and feel of Lavoris refreshes, helps keep them at ease. The bright red color of Lavoris helps mask minor hemorrhage.

# Television Dental Clinics

a live closed-circuit telecast presented by the

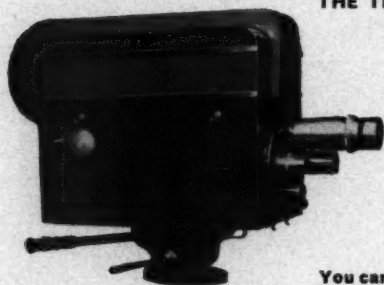

University of Pennsylvania School of Dentistry

in consultation with the American Dental Association

April 26, 1961

For the first time, postgraduate dental education will be brought to the profession nationwide through the medium of live closed-circuit television. Outstanding practitioners and clinicians will present current findings . . . new and useful procedures for your practice.

## THE TELECAST WILL INCLUDE PRACTICAL CLINICS ON:

The Management of the Edentulous Patient  
The Infrabony Pocket  
High Speed Instrumentation (from the University of Southern California)  
Root Resection  
Evaluation of Audio Analgesia

You can see this unique telecast at any of the locations listed below:

## *News and Announcements*

### **NOMINATIONS FOR C.D.S. OFFICES ANNOUNCED**

Nominations for the various offices of the Chicago Dental Society to serve during 1961-1962 were closed on March 17th in accordance with Article IX, Section II of the Constitution and By-Laws. Only one candidate has been nominated for each office, so there will be no contest.

The unopposed candidates are: President-elect, Robert F. Tuck; Vice-President, Edward F. Kritze; Secretary, Gerson M. Gould; Treasurer, Robert L. Kreiner. Their formal election will take place at the regular April meeting. President-elect O. E. Scott will be advanced automatically to the presidency and will be installed at the May meeting.

### **A CORRECTION**

On April 26th, a nationally-televised postgraduate course in dentistry will be presented over a closed circuit in 33 cities. The program is being developed by the University of Pennsylvania School of Dentistry in consultation with the American Dental Association. The costs for the development and presentation of the program will be borne by the Procter and Gamble Company. In Chicago the program will be shown in the Uptown Theater on the North Side and the Capitol Theater on the South Side, 8:00-9:30 p.m.

In error the date was published as April 24th in our March 15th issue. The correct date—Wednesday, April 26th.

### **IADR MEETING**

The International Association of Dental Research, Chicago Section, will hold its next meeting on April 20th at the Naval Training Center, Great Lakes, Illinois, with dinner in the Officer's Club.

Dinner reservation requests should be sent to the Dental Research Facility, Building 600, NTC, Great Lakes, Illinois.

### **DO YOU FLY?**

The Flying Dentist Association is growing into a national organization. The Midwest Branch is now being formed—requirements: (1) Private pilot's license, (2) Membership in the A.D.A.

On June 6th, a fly-in meeting will take place in San Antonio, Texas, then Monterrey, Mexico. For information, contact: Wilbert G. Gordon, D.D.S., 111 N. Wabash, Chicago, FRanklin 2-9727.

### **NORTH SIDE BRANCH MEETINGS AT NEW LOCATION**

The North Side Branch will hold its final meeting of the year at a new location on April 11th—Chef Alberto's Restaurant, 3001 W. Peterson Ave. The

## Be Ever Alert

Several weeks ago if you watched Channel 5 on TV at 9:00 p.m. Saturday, you would have heard a debate on the question of fluoridation of the communal water supplies between the Mayors of Atlanta, Georgia and Grand Rapids, Michigan. The Mayor of Atlanta opposed fluoridation and the Mayor of Grand Rapids supported it. The best that could be said for the performance was that it was a verbal brawl, not a debate. At 9:30, following this presentation and on the same channel, Dr. James N. Lynch, President of the Chicago Dental Society, Dr. John Bergmann, Chief of Dental Services for the Chicago Board of Health, and Mrs. D. Ann Sparmacher, Executive Secretary of the Chicago Council on Community Nursing, appeared, not to debate, but to give a report on fluoridation in the Chicagoland area. Their presentation was extremely well-done, most informative and very dignified. The effectiveness of the study made in Evanston was presented in a forthright manner along with other pertinent facts on the value of fluoridation of community water supplies. The case for fluoridation was presented in a fine manner.

On Saturday evening, March 11th, there appeared on the same TV channel Mrs. Alice Shuringa, Mr. Kirkpatrick Dilling and Dr. Frederick Exner to express the anti-fluoridation viewpoint. We have no quarrel with their right to appear to express their views but such an appearance granted on the basis of "equal time" when founded on a request by only six letters and at a very choice time for telecasting would seem to be stretching a point. In our opinion the best interests of the public are not served when so few persons are given an opportunity to destroy that which was established by fact and approved by those entrusted with the health of the people.

It is our considered judgment that an honest discussion of any problem is good but many of the supposed facts presented on March 11 were not exactly that. On checking the statement that the fluoride content of the Chicago water supply varied considerably with the Department of Health, we found these to be the facts. On the south side, where the supply comes from the 79th Street pumping and filtration plant, the fluoride content remained stable at 1 part to a 1,000,000 parts of water. On the north side, where the water is pumped over a much greater distance and when the water has high turbidity, it has been found that the content of fluorides has varied from .8 to 1.2 parts to the 1,000,000 parts of water but never to exceed the higher figure. This content has been found to be clinically safe.

There was a further statement that 1 part per million of fluoride caused tooth enamel to be noticeably mottled. The pictures shown on television which indicated mottling were those taken where the content was from  $2\frac{1}{2}$  to 8 parts to the million of water but it left the impression they were the result of a water supply fluoridated with 1 part to the million.

There was also the statement that the death rate had increased measurably in areas where fluoridation was introduced since 1950. This is certainly not so in fact and secondly we have had fluoridated water only since 1956.

Of course there was the cry of mass medication. Enough said on that score. Certainly when the American Medical Association, the American Dental Association, the U. S. Public Health Service, the American Association of Water Works Engineers and many other equally reputable scientific agencies have

# News of the Branches

## West Side

The March meeting of the branch was highlighted by two gentlemen from the First National Bank, Mr. Waid Vanderpoel and Mr. W. A. Nyman. Mr. Vanderpoel spoke on "Planning Investment" and Mr. Nyman on "The Dental Budget Plan." The talks were very informative and well received by the branch members. . . . Preparations for the golf outing are under way and the Mount Prospect course and facilities are being investigated by Dante Pellettieri. . . . The branch was pleased by the presence of the younger members, Frank Grippo and Dante Pellettieri. . . . The West Side Branch has added eight new members. . . . The members are requested to send five dollars to the American Dental Society for the Welfare Fund. For further information see Walter Zipprich or one of the officers of the branch. . . . Latest word from Leo Cahill is that he went after the big boys off the reefs of the Florida coast. . . . All members who plan to attend the State meeting are requested to arrange for hotel reservations as soon as possible. . . . Harold Epstein is vacationing in Puerto Rico and is having a delightful time. . . . The annual Homecoming of the Chicago College of Dental Surgery, the Dental Department of Loyola University will be held Wednesday, April 12th, at the Dental School. Dr. Frank A. Farrell, Dental Alumni President, invites all alumni to be present that day. Registration will begin at 8:30 a.m. and the program theme will be Periodontia for the General Practitioner with a television demonstration. There will also be sixty table clinics. A stag banquet will be held at the Pick-Congress Hotel starting at 6:30 p.m. There will also be professional entertainment for your pleasure and there will be no solicitation of money for the new school. . . . See you again.—*Andrew J. Kelleher, Branch Correspondent.*

## Northwest Side

The Northwest side branch meeting of Tuesday, March 7th, once more bore out the fact that the meetings are becoming ever more popular among the branch membership. The attendance was exceedingly large as was attested by the roster of those who attended. Mark Spencer told your reporter that there were only seven members who called to make their dinner reservations for that night, whereas when the final count was in there were over thirty members who attended that did not have season meal or dinner tickets. It would be a nice gesture on the part of those who plan to attend future meetings and who do not have season dinner tickets to call Mark Spencer at Na 2-0003 and inform him of their intentions. This will make the activities of the evening proceed at a much more leisurely pace as the caterer will have adequate time for preparation of food and table facilities. We also had quite a few members from other branches who came as visitors for the evening and they were most welcome to view our proceedings. This type of activity always makes for better relations between the various branches and is to be highly commended and encouraged in the field of professional relations. . . . The next scheduled branch meeting will be held at the Chanteclair on Tuesday, April 4th. This will be the "Home Talent Clinic Night," the clinicians will be members of our own branch who have special phases of dentistry which they discuss for the benefit of all. This should be one of the most interesting meetings of the season so please plan to be in attendance. . . . A happy note to report that Lester Miller was married in February to a Mrs. Miller who was a widow. This was a happy occasion for both Dr. and Mrs. Miller who exchanged vows without the inconvenience of a change in name. Another happy event is Jim and Ann Guerrero's

celebration of their 25th anniversary at a party given by friends and relatives. . . . Present were their son, Jim, Jr., who was in from Beloit College, and daughter Nina who attends Iowa State College. The Northwest branch is very happy to have amongst its midst the Guerrero family and certainly wishes them the best of everything in the happy years to come. . . . Still another happy event which I am personally happy to report is the testimonial dinner being given in honor of Dr. Stanley D. Tylman on May 13th at the Drake hotel. Dr. Tylman was one of my former professors at school and I do hold a personal regard for him as he has always been a dedicated man to the field of dentistry. . . . The nominating committee of your branch met on Thursday, Feb. 23rd, and these are their choices: President-elect, J. J. Applebaum; Vice-president, Mark Spencer; Secretary, Ray Rux; Treasurer, Lee Schwartz. . . . From all indications this slate of new officers should look forward to a bright and promising tenure in office. . . . It is with regret that we report the passing of Mitch Kaminski's father-in-law, John Zjawinski, on Feb. 23rd. Sympathy and condolences are extended to the Kaminski family. . . . Another untimely passing is that of Dr. Walter Boeck who maintained offices in Logan Square for many years, and sincerest condolences are extended to the Boeck family. . . . Our own Elaine Stuebner has just returned from Quincy, Illinois, where she gave a talk before the Gilmer Dental So-

ciety on the "Problems in Oral Surgery." She certainly is getting to be a much sought after speaker. . . . This is all for now.—*Chester L. Jasick, Branch Correspondent.*

## Kenwood-Hyde Park

The time is drawing near for the Kenwood-Hyde Park annual Clinic and Ladies' night. This is one affair that you surely cannot afford to miss, Vic Wittert has a wonderful program planned for the ladies and of course a delicious meal that would satisfy the most discriminating gourmet. There will be table clinics that will be of interest to all. More details will be given in the next issue of the Review. Endodontia-Pedodontia-Periodontia and something for the dental assistants will all be presented by outstanding clinicians who will enlighten us all with their various technics. Remember the date, Tuesday, May 2. . . . The next and last program for the season will be held on Tuesday, April 4th, with Dr. Thomas Barber, Professor of Pedodontia at the University of Illinois, whose subject will be "Interceptive Orthodontics." Be sure to attend this very important meeting of the year. . . . Loyola is once again holding its once-a-year Homecoming Day. This program sounds as if it will be an outstanding one. It will be directed toward Periodontia for the General Practitioner. There will also be

*(Continued on page 19)*

## EDITORIAL

*(Continued from page 11)*

found through numerous studies that fluorides in the ratio of 1 part to the million of water are safe, that it has produced a reduction in caries of 40 to 60 per cent in children who drink fluoridated water from birth, it is a worthy health measure and the greatest step in our fight against dental decay in recent years.

We urge and hope that every one of us will refresh his memory on the facts of fluoridation and then pass them on to his patients and answer any questions they might ask. Only as we keep informed and pass on to our patients that information can we hope to stem the scourge of mankind's most prevalent disease.—*E. Ebert.*

# *Swissedenture* is many things . . . It is DEDICATION

Certain dental laboratories have one thing in common: dedication to constructing the finest dental appliances possible. It is this dedication that individually interested these particular laboratories in Swissedenture. Dedication alone, however, was not enough. Only the best craftsmen completed the intensive Swissedent Foundation course of training with the excellence required to become Certified Swissedenture Technicians.

Our story does not end with this achievement—it only begins—for dedication means continuous effort and study. We, the members of the Midwest Esthetics Forum, meet every

month to review practical cases, to pool our knowledge and experience, to discuss new ideas, to improve, to constantly improve. These meetings are not only devoted to Swissedenture but to all phases of prosthetic dentistry.

Yes, Swissedenture—like all our subjects of study—is dedication. It is also the reflection of life, of sex, personality and age. But mostly it is people: the individuality of patients and the mutual quest for perfection by the Midwest Esthetics Forum and the profession we serve.

*Swissedenture is not a change from, but an addition to, your standard functional procedure. We devote our efforts to constructing Swissedenture cases as prescribed by the Swissedent Foundation (only Certified Swissedenture Laboratories can construct Swissedentures).*

*We, the members of the Midwest Esthetics Forum, pledge to maintain the highest standard of dental laboratory craftsmanship; to keep fingers on the pulse of all new advances in dental laboratory technology and, in consultation with members of the profession, to study these advances in an objective effort to determine their respective merits.*

## NEWS OF THE BRANCHES

(Continued from page 14)

a television demonstration. Remember the date, Wednesday, April 12th, at the Dental School. Come early and register. . . . The Illinois Academy of Dental Practice Administration presented Dr. Elbert O. Thompson of Salt Lake City, Utah, on "Efficient Operative Procedures and Practice Management and Patient Control." The meeting was held at the Hotel Pere Marquette in Peoria on March 26 and 27th. . . . See you all at the April 4th meeting. . . . Keep well and happy.—*Morton J. Fireman, Branch Correspondent.*

## North Side

**REMOVAL NOTICE!** For the final Branch meeting of the year on Tuesday, April 11th, we will move to our new meeting place, Chef Alberto's, 3001 Peterson Avenue. This new location will provide better food at more reasonable prices plus a more homey atmosphere conducive to more interesting meetings. Cocktails at 6:30, dinner at 7:00. All members not able to attend the dinner are invited to attend the lecture and meeting at 8:30 p.m. Our guest speaker will be Dr. Sam Pruzansky, Associate Professor of Orthodontics at the University of Illinois. He will speak on "Adventures in Clinical Practice," with practical case histories of great interest to the general practitioner. . . . This is an invitation to the close to 275 Loyola Alumni who are members of the Branch, to the Annual Homecoming of C.C.D.S. on April 12th. Dr. Frank Farrell, Alumni President, invites all to a program on "Periodontia for the General Practitioner" with a television demonstration. There will also be 60 table clinics. Registration starts at 8:30 a.m. and ample parking will be available in the Presbyterian lot one block south of Harrison on the east side of Paulina. Highlight of the day will be the Stag Banquet to be held at the Congress Hotel at 6 p.m. There will be pro-

fessional entertainment and no solicitation of funds for the new building. Come and enjoy with pride the excellent program presented by our fine faculty and other superb clinicians! . . . Formally elected at our March 14th North Side Meeting were: President, William Semloff; Vice-Pres., Raymond M. Bro; Secretary, Richard N. Pipia; Treasurer, Max M. Chubin; Librarian, Harry G. Greene; N.S. Director, Stanley S. Goldberg; and C.D.S. Director, Paul H. Brown. A timely talk on "Organized Dentistry, Dental Health, Insurance and Legislation" was given by Bernard Conway of the ADA. Dick Pipia and his Insurance Committee gave an excellent pre-program explanation of the various hospital plans, a comparative analysis and, depending on your individual needs, which policies are best. . . . The Uptown Dental Forum now has 17 couples signed up for its 2-week tour of Mexico in connection with the Mexican Dental Congress in November. To assure us of maximum benefits we would like to have 20 couples, so we are now extending our invitation to non-Forum members. Three more couples can join us for a well-planned, economy trip. For further information phone your correspondent at Sh 3-1643. Forum members heard a first-rate panel discussion on Crown and Bridge at their March 10th meeting featuring Jules Caplan, Sol Burnell and Irv Neer. These men are to be commended for their dedication to high quality dentistry! It was good to see Max Fisher and Al Ferencz at the meeting. . . . Our congratulations to Albert Spiro on his contemplated association with Ruby Kadens and Carl Sudakoff! Ruby is giving up residence in Lincolnwood and moving to Glenview. . . . Director of the Branch, Herb Krummel, echoed the feelings of the more than 35 men who attended the Elfenbaum Workshop on March 8th, when he said that after going from 9 to 5:30 you felt that the lecture was ending all too soon! . . . Thanks to Mary May, secretary to G. Wolford Haley, for the card telling us that Dr. and Mrs. Haley are enjoying a 2-week stay at Point Clear, Alabama,

**H**al! You've probably enjoyed being tricked by harmless April Fool pranks. . . . But there's nothing funny about making a professional impression on patients. Seriously, it's important to look, feel, and work your best. You CAN, you know, in a Manhattan gown that's styled properly, comfortable, —and inexpensive. No fooling, you get exactly the gown you prefer from Manhattan: tailored or ready-made, white or the popular new colors, open or closed collar, long or short sleeves. We'll gladly mail our catalog, send a salesman, or welcome your visit. Call WA 2-0283.

**Manhattan**

basking in the sunshine and golfing. . . . I'm happy to see that Dr. J. C. Grant, Class of '05, N.U., resents my calling him an old timer. He says I may call him that in 20 years from now. He is getting ready for the golfing season! Here is one better! Dr. Adolph Schneider, Class of '01, N.U., says we young fellows are way behind in the field of Perio!! . . . Bernie Widen, who recently passed the Orthodontic specialty and the California Boards, became a father for the 4th time. He is teaching and doing research at Loyola and is opening an orthodontic practice on Western near Howard. . . . Oscar Scheffler claims he enjoys working on problem patients, those who are terrified, etc., under general anesthesia. . . . W. G. F. Schmidt has pictures of his home and newly remodeled office in January and February *Better Homes and Gardens*. . . . Howard Greenburg just returned from a tough session of golfing down in Sebring, Florida.—*Paul Brown*.

## West Suburban

As we approach the end to our 1960-61 calendar of events, a very productive and fruitful year under the direction of our most worthy president, Joe Brophy, its climax is awaited with anticipation. Yes, next week, April 11, we will celebrate our "Golden Anniversary Party," a fabulous dinner-dance affair. For the benefit of those who have not made arrangements as yet, tickets can be gotten through Ed Kritzke, the cost is \$5.00 per member and \$8.00 per guest, members having a season ticket will be admitted with same. . . . Coming up on our April calendar of events is another top billing, a two-day workshop program of Hospital Dental Care in General Practice to be held at Community Memorial General Hospital on Wednesday, April 12th and Wednesday, April 19th, sponsored by the Division of Dentistry; chairman, Dr. Merrill Shepro. The faculty consists of Drs. Max Sadove, Herman Medak, Anthony Malone, Edward Lynch, Merrill Shepro, Gerard Casey, Nicholas

Choukas, and Raymond Rose. For registration, contact Merrill Shepro before April 5th. . . . Round table meets Monday, April 3rd, featuring Dr. H. E. Sorsen speaking on Trubyte Pontifab. . . . Oak Leaf Study Club meets Friday, April 7th. Dr. Arno Brett will speak on Direct and Indirect Pattern Technique. . . . On April 12th, Loyola Dental School CCDS, will hold its annual Homecoming with interesting programs of panel discussions, TV demonstrations, and table clinics. This will be climaxed by their annual stag Banquet at the Pick Congress Hotel. . . . Congratulations to Robert Bryant, a newcomer opening offices in Western Springs. Good Luck to you "Bob." . . . Also to H. Roe, M. Blechman, and F. Lucatorto on their new locations in the Winston Park Plaza. . . . Good Luck to Dale M. Lipe, Naperville's most recent orthodontist. . . . Congrats to Rodney Sippy who was admitted to Community Memorial Hospital staff. . . . Cheers to Joe and Mrs. McCormack on their latest addition, a future dentist. . . . Congratulations to Jack and Gloria Toomey on attaining variety for the "third." . . . On our traveling list, we find Stan Krupka about ready for his around-the-world tour which will commence this month. . . . Charles M. Mikolas is vacationing in Las Vegas and California. . . . Gordon Seatter has been enjoying Hawaii while visiting his daughter; wish I were along, Gordon. . . . Jim Hofrichter has been getting his share of manual labor by going south to his farm in Indiana. . . . In passing, a quote from 'Perry'—"A man's true wealth is the good he does in this world."—*Joseph V. Discipio, Branch Correspondent.*

## Englewood

In digging up news it is amazing to find the interesting avocations of our members. One of the most romantic, (I've been watching the TV Sea Hunt series) is skin diving. Ray Marcus is the most enthusiastic devotee of the sport. He belongs to the Illinois Skin Diving

**Rx for  
caries-active  
patients**

**SUGARLESS "SWEETS"**

**NON-CARIOGENIC GUM**

Peppermint, Spearmint, Fruit,  
Cinnamon, Clove, Grape and Licorice.

**NON-CARIOGENIC MINTS**

cluding Patient Distribution Folders, upon re-  
quest. Please give druggist's name and address.

**AMUROL PRODUCTS COMPANY  
NAPERVILLE, ILLINOIS**

Council which sponsors, among other activities, the annual statewide fish spearing contest. Ray not only outdid all other contestants by spearing the most fish but also the biggest ones, his freezer is still stocked with fish food. This feat won our member the title, "The Illinois State fish spearing champion." Ray is not satisfied, he is moved by the missionary spirit, and feels that he must introduce the sport to members of Englewood who will become the skin diving dentists. You go right in after the fish, no waiting for them to come up. Henry Urban came into the fold and so did Hans Schneemilch. Others, like Roman Urban, view his proposals with suspicions and mention such things as busted eardrums, airlines, bends, etc. Undaunted, Ray offers to bring to Englewood movies of his underwater explorations around the Virgin Islands to prove the enjoyment and safety of the sport. He hopes for mass conversions. While waiting for warmer weather he is constructing underwater housings for his cameras using plexiglass and dental cold cure acrylic. . . . Marion Hopkins has taken up oil painting as a hobby. His latest masterpiece is a bedroom mural depicting water lilies as viewed from below the water. . . . Charles Sinard's office was burglarized and in addition his tan is fading so he is going to Phoenix, Ariz. . . . Sam Rabishaw is sunning himself in the same vicinity. . . . Gus Solfronk chose Florida, as did Paul and Mrs. Kanchier. . . . R. and Mrs. Valentine are going on a month's jaunt to Europe—April in Paris. It's a charter flight of the

Palos Village Players. Danny Altier and Andy Gumpel are going too. . . . Van Dam is giving a lecture to the West Suburban Dental Assistants Association. . . . Joe Vocat's son, Joe, Jr., did his daddy proud by taking 2nd and 3rd honors in a statewide school speech contest. . . . Francis X. Pelka is on the executive board of the American Cancer Society, southwest division. . . . Jimmy Nowlan's son, Jimmy, Jr., is a resident in internal medicine, at the County Hospital. . . . Bill Shippee's boy is running a big time practice in Miami, Fla. . . . Carl Venkus lost his daughter, Carla, who was taken away by leukemia. . . . Ed Werre's boy is having a third operation for detached retina, which was injured accidentally by a thrown dart. . . . Tom Rooney is ill. . . . That terrible tornado ripped the chimney of Harry Kazen's office building. . . . Joe Ruzic expanded his office and is scheduled to present an oral surgery clinic at the Annual Alumnae Loyola dental school homecoming. He will present another clinic in Detroit for the Michigan state meeting. . . . Joe Vocat is going to Milwaukee for the Wis. state meeting with Otto Wagner if Otto's wife will let him. Otto won the squad prize in the annual Pederson Classic. Philanthropically he offered to buy with the cash a car wash at his "Minute Auto Wash" laundry for everyone in attendance at the seminar in the nearby Sahara Motel with transportation to and from provided. . . . The seminar on March 15 was a huge success with over 60 people in attendance. People are already looking

forward to the next year's seminar. The chairman was Bob Unger ably assisted by Ted Vermeulen, Otto Wagner, Don Buckley and Joseph Vocat. The men learned many tricks in the subject of prosthetics and a better understanding to the solution of their problems. . . . The Loyola dental alumni Homecoming, honoring the classes of '11, '16, '26 and '36, will be held April 12th. The stag banquet will take place as usual, at the Pick-Congress Hotel, 6:00 p.m., with professional entertainment. This year, no solicitation of money for the new school!—*This month's scribe, Julius J. Dziubak.*

## North Suburban

Well, Art Kahn certainly presented his subject well at the Villa Moderne. Nice turnout and good food. . . . Now for the Ladies' Night at Rolling Green Country Club, Tuesday, April 11th. The speaker will be Robert Samp of Madison. Rolley Bateman is Chairman. . . . Neal Nielsen handled the last meeting with his usual good form. . . . Doug Cook is on his way to Peoria to attend Elbert Thompson's seminar. . . . John McGuire, Jr. is back from touring the Virgin Islands, Puerto Rico, and Florida. . . . Ray Schulze is on his way back to Florida. Just a commuter. . . . "Butch" Schlosser is also sunning himself in Fla. . . . Randy Wescott is on his way to Europe. Will do a little lecturing while he is there. . . . Art Freeman has been skiing at Boyne Mountain, Michigan. . . . Bill Revenaugh is expect-

ing in July. "Girl for sure." Says his 14-inch Beagle is still climbing over a 4½-foot fence. . . . Jim Stephens is expecting in April. He's so sure of a girl that he has painted the nursery pink! Now that is confidence! . . . Hal Chason is on an island off Mexico. . . . Ed Sullivan has been fishing in Wisconsin. . . . Bob Whitfield is going to try his rod and reel floating down the White river in Arkansas. . . . Norm Blankenship, Ben Misantoni, and Dick Swoiskin look good after 10 days of golf in North Miami Beach. . . . Nice to see Nick Maibenco attending our meetings even though he has moved out Crystal Lake way. . . . Chuck Shaner announces that our golf outing will be June 14th at the Biltmore Country Club. Nice place! . . . The Northwest study club had Archanna Morrison out on March 29th. . . . The C.C.D.S. are holding their Homecoming at the School on April 12th. . . . A nice card came in from Steve Stephensen who is in Panama. . . . Get to swinging those clubs. We'll be playing soon. . . . See you at the next meeting. Then on to Peoria. Always some good things in life coming up!—*Floyd Grover, Branch Correspondent.*

### NEWS AND ANNOUNCEMENTS

(Continued from page 9)

change in meeting place should provide a more homey atmosphere, and better food at more reasonable prices. Cocktails at 6:30, dinner at 7 p.m. For those members unable to attend the dinner, the meeting and lecture will take place at 8:30. Guest speaker will be Dr. Sam Pruzansky, Associate Professor of Orthodontics at the U. of Illinois, who will speak on "Adventures in Clinical Practice." There will also be a short installation-of-officers ceremony.

### ARCOLIAN DENTAL ARTS ANNUAL DINNER DANCE

The Arcolian Dental Arts Society is holding its annual dinner-dance on April 15th at the Grand Ballroom of the Hotel Sherman. The affair will commence at 7:30 p.m. Providing the music will be Sammy Dean and his Orchestra. For further details, call Dr. J. Greco, MAAnsfield 6-5707.

### DENTISTRY FOR CHILDREN SPRING SEMINAR

All Chicago Dental Society members are invited to attend the annual Spring Seminar of the Illinois Society of Dentistry for Children, which will be held at the Wagon Wheel Lodge in Rockton, Illinois, on April 12 and 13. Dr. Sumter Arnim will conduct the program on April 12; his topic will be "Preservation of Oral Health." Dr. Sheldon Rosenstein will conduct the program on April 13; his topic, "Interceptive Orthodontics."

Registration is \$25.00 and may be sent to Dr. William Rogers, 3233 South Park, Chicago. Reservations for accommodations are \$5.00 and must also be sent to Dr. Rogers, immediately; please list number of persons and time of arrival and departure.

### C.D.A.A. NEWS

The next meeting of the Chicago Dental Assistants Association will take place at the Palmer House on April 20th at 8:00 p.m. Mr. Kenneth Weber will discuss "Principles of Laboratory Procedure."

North Side Branch of C.D.A.A. will meet on April 11th at The Villa Sweden Restaurant. This will be Clinic Night.

The South Side Branch meeting will be held on April 11th at Nielsen's Restaurant, with Dr. Stanley Korf speaking on "Fundamentals of a Child's Introduction to Dentistry."

The West Side Branch meeting will take place on April 11th at Otto's Restaurant. Dr. Joseph A. Josh will be guest speaker.

### I.D.H.A. MEETING

The Illinois Dental Hygienists Association anticipates with pleasure the appearance of Dr. Robert Kesel, one of its sponsors, at the April meeting on the 13th. The place is Younker's 51 E. Chicago Ave., the time is 7:15 p.m. If dinner is not desired, 8:00 p.m. will be in time for just the meeting.

NOW—from COOK-WAITE

## UNSURPASSED ANESTHESIA TO SUIT THE PROCEDURE

**CARBOCAINE** HCl 2%

Brand of mepivacaine HCl

with NEO-COBEFRIN 1:20,000

Brand of levo-nordefrin

### FOR LONGER LASTING ANESTHESIA In

- oral and periodontal surgery
- quadrant dentistry
- pulp canal work

Millions of injections in private dental practice as well as large scale clinical trials have proven the margin of safety and effectiveness of CARBOCAINE HCl.

The established 2% solution with NEO-COBEFRIN has demonstrated a wide margin of safety and is well tolerated as an oral local anesthetic. Very rapid onset produces deep, penetrating anesthesia of long duration. In both infiltration and regional anesthesia, there has been practically no evidence of failure.

CARBOCAINE with vasoconstrictor provides other advantages including ready diffusion into hard and soft tissues for control of pain.

It is particularly indicated in periodontal surgery when some degree of hemostasis is desired to produce a dry field. Because of its distinctive molecule, CARBOCAINE does not provoke allergic responses in patients sensitized to procaine.

**CARBOCAINE** HCl 3%

Brand of articaine (procaine-HCl)

without vasoconstrictor

### FOR SHORTER ACTING ANESTHESIA In

- those restorative procedures which high-speed techniques have shortened so dramatically
- simple extractions
- children's dentistry

One of the major advantages of new CARBOCAINE 3% without vasoconstrictor is that it produces deep anesthesia of relatively short duration by virtue of its own distinct constricting ability. It reduces soft tissue anesthesia by as much as one hour, a distinct advantage today in children's dentistry and in restorative procedures.

This new formulation is possible because CARBOCAINE is unique among dental anesthetics in that it consistently produces satisfactory anesthesia without the need of a potentiating vasoconstrictor. CARBOCAINE 3% without a vasoconstrictor has proven well tolerated. It achieves shorter duration anesthesia but is equally as effective as CARBOCAINE 2% with NEO-COBEFRIN, and produces significantly fast onset of anesthesia.

In simple extractions, CARBOCAINE 3% avoids the potential hazard of delayed hemorrhage and aids in the prevention of alveolitis since natural bleeding ensues immediately. It is also valuable in periodontal scaling where normal bleeding is desired.

## SUCCESSFUL PRACTICES NEED BOTH

**COOK-WAITE**

and samples on request.

CARBOCAINE AND NEO-COBEFRIN ARE THE TRADEMARKS (Incl. U. S. PAT. OFF.) OF STERLING DRUG INC.

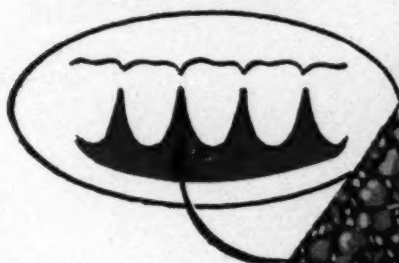

*The ultimate for the discriminate*

Here is clasp that is years ahead. The Nobilium Floating Clasp, as its name indicates, is *movable*, and involves only the partial and an individual abutment tooth. The result is *maximum retention, minimum stress*. It is indicated in **ALL** partial denture construction. When two, three, or more clasps are employed, each performs its function without interference from the others. Esthetics heretofore unattainable is established. For complete information write your preferred Nobilium laboratory.

# STIM-U-DENTS

**PLAY AN IMPORTANT ROLE  
in good interdental hygiene, so vital to good gingival health**

Leading periodontists agree that local irritation caused by food residues in areas not ordinarily reached by the toothbrush are an important contributing factor in periodontal disease . . . Not only is the cleansing effect of STIM-U-DENTS useful in the treatment of these diseases, but they are also helpful in the maintenance of optimum gingival health, and are so convenient to use after eating.

If you're not using STIM-U-DENTS in your practice, send for a supply of FREE SAMPLES today. You'll find they are a valuable adjunct to treatment.
